

User Manual

Overview:

This is an All in one Integrated Solar Moon Light with 35 Watt Solar Panel 15 Watt NICHIA LED with 2100 Lumens. It consists of 3.2 volts 30 AH LiFePO4 battery. Inbuilt intelligent sensor control system helps in charging the battery and switching light ON/OFF. Light runs with 100% brightness for first 4 hours and later on switched to intelligent control. Intelligent control regulates the brightness depending on the battery availability and ensures that it gives light throughout the night.

Advantages of Solar Moon Light 15W:

- Energy Saving: Transforms sunlight into electrical energy. Sunlight is unlimited, clean and alternative energy source.
- The light can be installed from Equator area to Polar Regions. The Working temperature is -20 to 60 deg C.
- Environment Protection: No Pollution, Noise or Radiation.
- Safety: Lower Voltage Power Supply (3.2 Volts), safe than conventional energy sources. This product is very safe and reliable operation.
- This solar moon light has got LiFePO4 battery which can withstand very high and low temperature. It is more efficient than Li-ion and lead acid batteries.
- Can be used as a street light as well as a garden light.
- Easy Installation, no hanging wires or construction needed. The lamp can light up vast areas and 360-degree angle.
- Unmatched reliability and quality.
- Maintenance Free. This lamp turns ON / OFF Automatically. It does not need and manual intervention. Also there is no other maintenance required other than cleaning solar panel once in a while.
- Eco friendly and high-end usage.
- Elegant and Modern design. Can be used anywhere which gives a very rich look.

Application:

This light can be used as a Street Light as well as a Garden Light. It is widely used in street and roads, residential areas, scenic spots, parks, private gardens and other public areas. It helps create safer environment and can increase people outdoor night activities.

Technical Specification:

- Solar Panel with 35W and a life span of 25 years.
- LifePO4 battery with a voltage of 3.2V.
- The battery capacity is 30 Ah with a life span of 8-12 years.
- The working time is 1 night with a charging time of 8-12 hours.
- LED chip brand is NICHIA which has a wattage of 15W and emits with a maximum power of 15 W/2100 Lumens (1W=160 Lumens).
- The lifetime of LED is >50000 Hrs with a viewing angle 360 deg.
- The color of the light is Warm white with a temperature of 2700-3300k.

Pictorial Representation:

Installation Details:

- Installation height is 5 Meters.
- Installation distance is 10 Meters.
- It can be installed on a Pole or Wall.
- Recommended angle of the light is 360 degree for more spread.
- Along with the product, five M6 screws are included in the box.
- U Clamp has to be bought separately for installation.

Maintenance:

- This product is maintenance free. However, if the product is used in areas where there is lot of dust, the solar panel has to be cleaned once in 6 months to ensure product charges efficiently.
- Install the light at certain angle, so that during raining season panel is cleaned naturally.

Warranty:

- The product covers 3 years warranty from the date of invoice.
- Warranty is not covered for the damage of product due to any misuse/broken parts and natural disaster.
