

User Manual

Overview:

This is an All in one Integrated Solar Street Light with 15 Watt Solar Panel 10 Watt NICHIA LED with 1600 Lumens. It consists of 3.2 volts 30 AH LiFePO4 battery. Inbuilt intelligent sensor control system helps in charging the battery and switching light ON/OFF. Light runs with 100% brightness for first 4 hours and later on switched to intelligent control. Intelligent control regulates the brightness depending on the battery availability and ensures that it gives light throughout the night

Advantages of Solar Street Light 10W:

- Energy Saving: Transforms sunlight into electrical energy. Sunlight is unlimited, clean and alternative energy source.
- The light can be installed from Equator area to Polar Regions. The Working temperature is -20 to 60 deg C.
- Environment Protection: No Pollution, Noise or Radiation.
- Safety: Lower Voltage Power Supply (3.2 Volts), safe than conventional energy sources. This product is very safe and reliable operation.
- This solar street light has got LiFePO4 battery which can withstand very high and low temperature. It is more efficient than Li-ion and lead acid batteries.
- Easy Installation, no hanging wires or construction needed. The lamp can light up vast areas and 120-degree angle.
- Unmatched reliability and quality.
- Maintenance Free. This lamp turns ON / OFF Automatically. It does not need and manual intervention. Also there is no other maintenance required other than cleaning solar panel once in a while.
- Eco friendly and high-end usage.
- Elegant and Modern design. Can be used anywhere which gives a very rich look.

Application:

It is widely used in street and roads, residential areas, scenic spots, parks, private gardens and other public areas. It helps create safer environment and can increase people our door night activities.

Technical Specification:

- Solar Panel with 15W and a life span of 25 years.

- LifePO4 battery with a voltage of 3.2V.
- The battery capacity is 30 Ah with a life span of 5-6 years.
- The working time is 1 night with a charging time of 6-8 hours.
- LED chip brand is NICHIA which has a wattage of 10W and emits with a maximum power of 10 W/1600 Lumens (1W=160 Lumens).
- The lifetime of LED is >50000 Hrs with a viewing angle 120 deg.
- The color of the light is Pure/Cool white with a temperature of 5000-6000k.

Pictorial Representation:

Installation Details:

- Installation height is 3-4 Meters.
- Installation distance is 10 Meters.
- It can be installed on a Pole or Wall.
- Recommended angle of the light is 120 degree for more spread. By using the Allen Key loosen the Clamp bolt to change or adjust the angle of the light.
- Along with the product, M8 Allen Key and a 3 Inch U Clamp are included in the box.

**Maintenance:**

- This product is maintenance free. However, if the product is used in areas where there is lot of dust, the solar panel has to be cleaned once in 6 months to ensure product charges efficiently.
- Install the light at certain angle, so that during raining season panel is cleaned naturally.

Warranty:

- The product covers 3 years warranty from the date of invoice.
- Warranty is not covered for the damage of product due to any misuse/broken parts and natural disaster.
